SUMMARY

I am passionate about technology and continuously strive to learn and improve my skills. I embrace fit-for-purpose technology and enjoy working in a diverse stack environment. I thrive in collaborative teams with shared goals and have the ability to lead projects while also being a proactive team player.

EXPERIENCE

Web Developer Intern

GAO Tek Inc. 04/2024 – Present Remote

- Applied HTML and CSS to create structured and visually appealing web pages.
- Utilized JavaScript to implement basic functionalities and enhance user interactivity.
- Contributed to building simple user interfaces with React, understanding its component-based structure.
- Used WordPress to build and modify websites.
- Collaborated within teams, contributing to the integration of front-end and back-end elements.
- Creating responsive designs that are functionally valuable to users.
- Participated in code reviews to learn about code quality and best practices.
- Kept updated with beginner-level web development trends and practices for project support.
